SECOND QUARTER AND FIRST HALF 2026 UNAUDITED RESULTS ANNOUNCEMENT

Bloomberry narrows 2Q2026 loss on higher GGR and assertive cost management
First-half cash opex rise capped at 3%

2Q2026 HIGHLIGHTS:

- Bloomberry's Gross Gaming Revenue (GGR) was P16.4 billion, representing an increase of 15% from P14.3 billion in the second quarter of 2025. Higher hold rates across all gaming segments lifted GGR; however, the VIP and premium mass segments continued to experience weakness.
- Net revenue in the second quarter was P14.1 billion, representing an increase of 11% from P12.7 billion in the same period last year.
- Cash operating expenses reached P10.7 billion, higher by only 5% compared to P10.2 billion in the same quarter last year. Cash operating expenses remained under control, with majority of the increase explained by higher taxes and licenses, salaries and benefits, and software and hardware maintenance costs.
- Consolidated EBITDA was P3.4 billion, higher by 35% compared to P2.5 billion in the second quarter of 2025. The improvement was mainly due to higher GGR and the impact of cost optimization initiatives.
- Consolidated net loss was P345.3 million, compared with net loss of P1.4 billion in the same period last year.

FIRST HALF 2026 HIGHLIGHTS:

- Consolidated GGR was P31.1 billion, unchanged from the previous year.
- Consolidated net revenue was P27.2 billion, representing an increase of 1 % against P27.0 billion in the same period last year.
- Consolidated EBITDA was P6.4 billion, compared with P6.9 billion in the first six months of the previous year.
- Consolidated net loss was P470.3 million which compares to net income of P1.9 billion in the first half of 2025. Notable one-off items that impacted the bottom line include 1) a P403.0 million gain in the first quarter of 2026 relating to the sale of the Jeju Sun gaming license through a demerger and share purchase arrangement, and 2) a P2.9 billion one-time, non-cash gain recognized in the first quarter of 2025 from the refinancing of the P40 billion Syndicated Loan Facility.

Bloomberry Resorts Corporation ("Bloomberry", "the Company"), whose subsidiaries own and operate Solaire Resort Entertainment City (SEC), Solaire Resort Quezon City (SQC), Jeju Sun Hotel & Casino (Jeju Sun), as well as the Solaire Online and FUNaloMax online gaming platforms, reported unaudited consolidated financial results for the three months and six months ended June 30, 2026.

Enrique K. Razon Jr., Bloomberry Chairman and CEO, commented, “We delivered GGR growth in the second-quarter, supported by stronger hold rates across our gaming operations. However, underlying demand in the VIP and premium mass segments remained soft. Assertive cost management complemented higher revenues, driving EBITDA growth both sequentially and year-over-year.”

“Our focus on operating efficiency continues to drive results. Despite a challenging macroeconomic environment characterized by elevated oil prices, higher interest rates, and weaker peso, we limited cash operating expense growth to just 5% and 3% for the quarter and the first half, respectively, underscoring the effectiveness of our cost optimization initiatives.”

“Looking ahead, we remain focused on disciplined execution. Alongside continued cost optimization, we are advancing our digital strategy with the recent commercial launch of FUNaloMax on our proprietary platform which will be joined by Solaire Online on the same platform in the coming weeks. We anticipate that these initiatives will enhance the patron experience and position Bloomberry to capture incremental revenue growth in the quarters ahead.”

Consolidated Results

Bloomberry’s Gross Gaming Revenue (GGR) was P16.4 billion, representing an increase of 15% from P14.3 billion in the second quarter of 2025. Contra-revenue accounts in the second quarter increased by 23% year-over-year to P3.7 billion. This represents 23% of consolidated GGR, compared to 21% in the same quarter last year.
