Solaire Resort Corporation (“SRC”)

On October 18, 2022, SRC was incorporated to develop and operate an integrated resort including a casino duly licensed by the Philippine Amusement and Gaming Corporation, and other relevant government regulators.

c. Status of Operations

Sureste and BRHI

PAGCOR granted BRHI the Provisional License on April 8, 2009 to develop an integrated casino, hotel and entertainment complex within Entertainment City (the “Project”). BRHI is one of four licensees for Entertainment City. The Provisional License, as well as the regular license issued to replace it, is concurrent with PAGCOR’s congressional franchise. PAGCOR’s franchise will expire on July 11, 2033, and may be renewed when PAGCOR’s franchise is renewed by law. On May 7, 2015, BRHI’s Provisional License was replaced with a regular casino Gaming License upon full completion of the Project, referred to as “Solaire Resort Entertainment City”. The Gaming License has the same terms and conditions as the Provisional License.

Solaire Resort Entertainment City

Solaire Resort Entertainment City is one of the Philippines’ first premium/luxury hotel and gaming resorts. The gaming and integrated resort complex on 16-hectare land along Asean Avenue in Parañaque City is the first casino to operate within Entertainment City. BRHI, as the license holder, owns and operates the casino while Sureste owns and operates the hotel and non-gaming business.

On March 16, 2013, BRHI and Sureste commenced commercial operations upon completion of Phase 1 of Solaire Resort Entertainment City, now referred to as the Bay Tower, along with the opening of the main gaming area and initial non-gaming amenities, such as Solaire Resort Entertainment City’s hotel, food and beverage outlets.

On June 5, 2018, Sureste acquired the two parcels of land in Entertainment City from PAGCOR with a total area of 160,359 square meters where Solaire Resort Entertainment City is located.

On June 8, 2025, Bloomberg soft-launched MegaFUNalo! -- a broad-mass digital gaming platform that effectively widens the Company’s suite of gaming offerings and increases its exposure to online gaming.

On April 6, 2026, Bloomberg soft-launched FUNaloMax which operates on an in-house platform. Subsequently, MegaFUNalo! was shut down on May 1, 2026.

#### Solaire Resort North

In 2015, Sureste purchased from the National Housing Authority (NHA) 15,676 square meters of land in Vertis North, Quezon City Central Business District and was issued Transfer Certificates of the Title on June 24, 2016. This property is the site of “Solaire Resort North,” BRHI’s second integrated resort in the Philippines under the same PAGCOR license. Solaire Resort North commenced operations on May 25, 2024.

#### G&L

G&L operated a hotel and casino property in Jeju, Korea under the brand name “T.H.E Hotel” and “Las Vegas Casino”. Upon takeover of operation by Bloomberg, the property was rebranded as “Jeju Sun Hotel & Casino” (“Jeju Sun”). The property consists of a 202-room hotel with 5 Hibiscus rating, 2,000 square meters of gaming operations with 36 tables and 20 electronic gaming machines. The property has four food and beverage outlets to service its hotel guest and casino players. In 2018, a reorganization was implemented separating hotel and casino operations. In the fourth quarter of 2018, Jeju Sun embarked on a renovation project covering 164 rooms, restaurants, lobby, building facade, sports bar, gym, sauna, back of the house and a new ballroom for the purpose of securing the 5 Hibiscus rating that is required to keep its gaming license. Renovations were completed in December 2019.

In October 2025, G&L entered into a Share Purchase Agreement (“SPA”) to spin off its casino business into a newly established company (the “New Company”) through a demerger. Following the completion of the demerger, G&L will sell all shares of the New Company to Gangwon Blue One Ltd. (the “Buyer”). As of March 31, 2026, the demerger has been completed and the gaming license and operations of G&L have been successfully transferred to Heaven Co. Ltd. On the same date, G&L transferred ownership of Heaven Co. Ltd. to the buyer, Blue One Ltd., following the payment totaling KRW 7.0 billion of the purchase price. The remaining balance of KRW 3.0 billion is scheduled for payment on or before February 27, 2027.

Following the sale, Heaven Co. Ltd. will continue to operate the casino business at G&L’s Jeju Island property under a lease agreement until a new location for its operations is secured.

#### Paniman Project

On May 18, 2022, Bloomberg through SPC entered into an agreement with a group of landowners comprising Boulevard Holdings Inc., Puerto Azul Land, Inc., Ternate Development Corporation and Monte Sol Development Corporation (the “Sellers”) for the purchase by SPC of a total of 2,797,768 square meters of land in the Paniman area in Ternate, Cavite at the average price of ₱2,700 per square meter. In addition to the land purchased from the Sellers, SPC has also purchased additional parcels of land in Ternate, Cavite from other sellers. As of March 31, 2025, SPC has purchased 223 lots with a total land area of 2,036,665 square meters.

SPC intends to develop the Paniman property into an integrated resort and entertainment complex with a world class casino, hotel, golf course, commercial, residential and mixed-use development.

The development timeline for this project is yet to be finalized.

## 2. Summary of Significant Accounting Policies and Disclosures

### Basis of Preparation

The consolidated financial statements of Bloomberry and its subsidiaries (collectively referred to as the “Group”) have been prepared in conformity with Philippine Financial Reporting Standards (“PFRS”) Accounting Standards.

The consolidated financial statements have been prepared under the historical cost basis except for investment in club shares which have been measured at fair value and land classified as part of “Property and equipment” which is carried at revalued amount beginning January 1, 2024. The consolidated financial statements are presented in Philippine Peso, the functional currency of the Parent Company, and all values are rounded to the nearest peso, except when otherwise indicated.

### Basis of Consolidation

The consolidated financial statements include the financial statements of Bloomberry and its subsidiaries (collectively referred to as the “Group”). As of March 31, 2026 and December 31, 2025, direct and indirect subsidiaries of Bloomberry include:

	Effective Percentage of Ownership	
	Direct	Indirect
Sureste	91	9
BRHI (through Sureste)	–	100
Bloom Capital B.V.*	100	–
Bloomberry Cruise Terminal, Inc.	100	–
Solaire Korea	100	–
G&L (through Solaire Korea)	10	86
Muui (through Solaire Korea)*	–	90
Solaire Properties Corporation (SPC)	100	–
Solaire Resorts Corporation (SRC)*	100	–

*\*has not started commercial operations*

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee, if and only if, the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that majority of voting rights results in control. To support this presumption and when the Group has less than majority of voting rights or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Group’s voting rights and potential voting rights.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired

or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (“OCI”) are attributed to the equity holders of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group’s accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, noncontrolling interest and other components of equity, while any resultant gain or loss is recognized in profit or loss. Any investment retained is recognized at fair value.

*Non-Controlling Interests.* Non-controlling interests represent the portion of profit or loss and net assets in the subsidiaries not held by the Group and are presented separately in the consolidated statement of comprehensive income and within equity in the consolidated statement of financial position, separately from equity attributable to equity holders of the Group.

#### Changes in Accounting Policies and Disclosures

The Group’s accounting policies are consistent with those of the previous financial year, except for the adoption of the following new accounting pronouncements effective as at January 1, 2026. Unless otherwise indicated, adoption of these new standards did not have an impact on the consolidated financial statements of the Group.

#### *Deferred effectivity*

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

### **Significant Accounting Policies**

#### Financial Assets

The Group's financial assets are classified as financial assets at amortized cost. The Group applies the simplified approach in measuring expected credit losses (ECL) for trade receivables which uses a lifetime expected loss allowance for all trade receivables. These are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial assets. To calculate the ECL, the Group uses its historical experience, external indicators and forward-looking information using a provision matrix. The Group also assesses impairment of trade receivables on an individual and collective basis as they possess shared credit risk characteristics and have been grouped based on the days past due. Meanwhile, impairment of other financial assets is assessed using the general approach which considers available financial information of counterparties.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Cash includes cash on hand and in banks, including bank accounts maintained by the Group as collateral for its long-term debt. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from the date of acquisition, and for which there is an insignificant risk of change in value. Cash and cash equivalents include demand deposits whose terms and conditions do not prevent the entity from accessing the amounts held in it.

As of March 31, 2026 and December 31, 2025, financial assets at amortized cost includes cash and cash equivalents, receivables, security deposits and funds held in trust.

#### Financial Liabilities

The Group's financial liabilities are classified as loans and borrowing and payables. These are recognized initially at fair value, net of directly attributable transaction costs, and subsequently measured at amortized cost. A financial liability is derecognized when the obligation under the liability is discharged or canceled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the Group's profit or loss.

As of March 31, 2026 and December 31, 2025, financial liabilities include payables and other current liabilities, long-term debt and lease liabilities.

### Inventories

Inventories are valued at the lower of cost and net realizable value (“NRV”). The cost is determined using the moving average method except for table card inventories (presented as part of operating supplies) where the first in, first out method (“FIFO”) is being utilized. The NRV is based on estimated selling prices less estimated costs to be incurred on completion and disposal. The NRV of operating and other supplies is the current replacement cost.

### Promo Merchandise

Promo merchandise pertains to items to be provided by the Group to its patrons as giveaways at different marketing events. These are carried at lower of cost and NRV and charged to “Cost of sales” once distributed to the patrons. The cost of the promo merchandise is determined using the FIFO method. The NRV of promo merchandise is the current replacement cost.

### Property and Equipment

The Group’s property and equipment, except land, is initially recognized at cost and subsequently recognized at cost less accumulated depreciation and amortization and any impairment in value. Prior to January 1, 2024, land is carried at cost, less any accumulated impairment.

Effective January 1, 2024, land is measured at fair value recognized at the date of revaluation. Changes in fair value of land, net of related deferred income tax, are recorded in other comprehensive income (“OCI”) and credited to the “Revaluation increment” account in equity.

Depreciation and amortization are computed using the straight-line method over the following estimated useful lives of the assets:

Land improvements	10 years
Building and improvements	40 years
Machineries	10 years
Gaming equipment	5 years
Office furniture and fixtures	5 years
Transportation equipment	5 years
Leasehold improvements	3 years or lease term, whichever is shorter
Office and communication equipment	5 years

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Land	10 to 20 years
Building	3 years
Gaming equipment	3 years

### Operating Equipment

Operating equipment (shown as part of “Other noncurrent assets” account) is initially recognized at cost and subsequently recognized at cost less accumulated amortization, as applicable.

### Impairment of Nonfinancial Assets

The Group’s investments in property and equipment, right-of-use assets, joint ventures and other non-financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset’s recoverable amount is determined for an individual asset, unless the asset does not generate inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset of cash generating unit (“CGU”) exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The recoverable amount of the assets is the higher of fair value less costs of disposal and value-in-use (“VIU”).

In assessing VIU, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. A long-term growth rate is calculated and applied to project future cash flows after the fifth year.

Goodwill and intangible assets with indefinite useful lives are tested for impairment annually at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.

#### Share-based Payment Plan

Certain qualified officers and employees of the Group and subsidiaries receive remuneration for their services in the form of equity shares of the Group ("equity-settled transactions").

The cost of equity-settled transactions with officers and employees is measured by reference to the fair value of the stock at the date on which these are granted. Fair value was determined based on the quoted market price of the underlying stocks.

#### Revenue from Contracts with Customers

The Group's revenue from contracts with customers primarily consist of gaming, hotel accommodation services, food and beverage, and retail and other revenue. Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements.

#### *Gaming revenue*

Gaming revenue is recognized when the control of the service is transferred to the patron upon execution of a gaming play. The Group accounts for its gaming revenue contracts collectively on a portfolio basis versus an individual basis as all patrons have similar characteristics. The Group considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. Accordingly, for gaming transactions that include complimentary goods and services provided by the Group to incentivize future gaming, the Group allocates the stand-alone selling price of each good or service to the appropriate revenue type. In determining the transaction price, gaming revenue is measured by the aggregate net difference between gaming wins and losses and the effect of consideration payable to a patron (if any) is considered. Amounts rebated to junket operators and premium patrons for rolling play, cash discounts and other cash incentives to patrons related to gaming play are recognized as a reduction from gross gaming revenue.

#### *Hotel, food and beverage, retail and other operating revenues*

Hotel, food and beverage, retail and other operating revenues are recognized when the control of the goods or service is transferred to the customer, generally when the services are performed or the retail goods are delivered.

Retail and other revenue includes sale of various merchandise, communication and transportation services to Solaire guests and patrons.

#### *Customer Loyalty Program*

The Group has a loyalty points program which allows customers to accumulate points that can be redeemed for free hotel accommodation, food and beverage, retail goods and other services.

The loyalty points give rise to a separate performance obligation as they provide a material right to the customer. The Group's customer is able to use the points as a currency (i.e., currency value has been fixed and can no longer be changed by the Group). A portion of the transaction price is allocated to the loyalty points awarded to customers based on relative stand-alone selling price and recognized as a financial liability until the points are redeemed. The number of points redeemed through third parties is recognized as reduction in gaming revenue.

#### Employee Benefits

The Group provides post-employment benefits to employees through a defined benefit plan and other employee benefits.

The Group's defined benefit post-employment plan covers all regular full-time employees.

The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method.

Defined benefit costs comprise the following:

- a) service cost;
- b) interest on the net defined benefit liability; and
- c) remeasurements of defined benefit liability.

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Interest on the defined benefit liability is the change during the period in the net defined benefit liability that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability.

Interest on the defined benefit liability is recognized as expense or income in the profit or loss.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in OCI in the period in which they arise. Remeasurements are reclassified to retained earnings in the current period.

#### Leases

##### *Group as a Lessee*

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

Subsequent to initial recognition, the Group depreciates the right-of-use asset on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term which is from 3 to 20 years.

##### *Short-term leases and leases of low-value assets*

The Group applies the short-term lease recognition exemption to its short-term leases of equipment and other rentals (i.e., those leases that have a lease term of 12 months or less from

the commencement date and do not contain a purchase option). It also applies the leases of low-value assets recognition exemption to leases of office equipment that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

#### *Group as a Lessor*

Leases where the Group does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease term and is included in "Retail and others" account in the consolidated statements of comprehensive income. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same bases as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

#### Treasury Shares

Treasury shares, including cost of shares held by a subsidiary, are the Group's own equity instruments which are reacquired by the Group and are recognized at cost and presented as reduction in equity. No gain or loss is recognized in profit or loss on the purchase, sale, reissuance or cancellation of the Group's own equity instruments. Any difference between the carrying amount and the consideration upon reissuance or cancellation of shares is recognized as additional paid-in capital ("APIC").

#### Earnings Per Share

The Group presents basic and diluted earnings per share rate for its shares.

Basic earnings per share ("EPS") is calculated by dividing net income for the year attributable to equity holders of the Group by the weighted average number of shares outstanding during the year after giving retroactive effect to any stock dividend declarations.

Diluted earnings per share is computed in the same manner, adjusted for the effect of the shares issuable to qualified officers and employees under the Group's stock incentive plan which are assumed to be exercised at the date of grant. Where the effect of the vesting of stock under the stock incentive plan is anti-dilutive, basic and diluted earnings per share are stated at the same amount.

#### Foreign Currency Transactions and Translations

The Groups' financial statements are presented in Philippine Peso. The Philippine Peso is the currency of the primary economic environment in which the Group operates.

#### *Transactions and Balances*

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates prevailing at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognized in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

#### *Group Companies*

On consolidation, the assets and liabilities of foreign operations are translated into Philippine Peso at the rate of exchange prevailing at the reporting date and their statements of profit or loss are

translated at the average exchange rates for the year. The exchange differences arising on translation for consolidation are recognized in OCI and taken directly to a separate component of equity as translation adjustments. On disposal of these subsidiaries, the amount of deferred cumulative translation adjustments recognized in equity relating to subsidiaries shall be recognized in profit or loss.

## Taxes

### *Current Income Tax*

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted as at the financial reporting date.

Current income tax relating to items recognized directly in equity is recognized in equity and not in profit or loss.

### *Deferred Income Tax*

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the financial reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences except: (1) when the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or (2) in respect of taxable temporary differences associated with investment in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences and carryforward benefits of unused excess of minimum corporate income tax ("MCIT") over regular corporate income tax ("RCIT") and unused net operating loss carry-over ("NOLCO") to the extent that it is probable that taxable income will be available against which the deductible temporary differences and the carryforward benefits of unused tax credits and unused tax losses can be utilized except: (1) when the deferred income tax asset relating to deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or (2) in respect of deductible temporary differences associated with investment in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each financial reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each financial reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted as at financial reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity

and the same taxation authority.

*Value-Added Tax ("VAT").* Revenues, expenses and assets are recognized net of the amount of VAT, except:

- When the VAT incurred on a purchase of assets or services is not recoverable from the tax authority, in which case the VAT is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; or
- Receivables and payables that are stated with the amount of VAT included.

The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of the "Prepayments and other current assets" or "Payables and other current liabilities" accounts in the consolidated statement of financial position.

### **Management's Use of Judgments, Estimates and Assumptions**

The preparation of the consolidated financial statements in conformity with PFRSs requires the Group to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities at the reporting date. The uncertainties inherent in these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the assets or liabilities affected in the future years.

#### Judgments

In the process of applying the Group's accounting policies, management has made the following judgments apart from those including estimations and assumptions, which has the most significant effect on the amounts recognized in the consolidated financial statements.

*Contingencies.* The Group is involved in certain legal proceedings. The Group's judgment and estimate of the probable cost for the implication of these matters has been developed in consultation with its legal counsels and is based upon an analysis of potential results. Management and its legal counsels do not believe these will have a material adverse effect on its financial position or performance. It is possible, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of strategies relating to this matter.

*Identification of Contract with Customers under PFRS 15.* The Group applied PFRS 15 guidance to a portfolio of contracts with similar characteristics as the Group reasonably expects that the effects on the consolidated financial statements of applying this guidance to the portfolio would not differ materially from applying this guidance to the individual contracts within that portfolio. Hence, the Group viewed a gaming day as one contract.

*Identifying Performance Obligations.* The Group identifies performance obligations by considering whether the promised goods or services in the contract are distinct goods or services. A good or service is distinct when the customer can benefit from the good or service on its own or together with other resources that are readily available to the customer and the Group's promise to transfer the good or service to the customer is separately identifiable from the other promises in the contract.

The Group provides promotional merchandise items to its patrons as giveaways at different marketing events and grants certain complimentary in the form of free hotel accommodation; food and beverages; and retail merchandise from outlets to incentivize future gaming. The Group determined that the promotional merchandise items and complimentary incentives given to the patrons are capable of being distinct and therefore considered as separate performance obligations.

*Determination and Allocation of the Transaction Price.* The Group considers whether there are other promises in the contracts with customers that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price, the Group considers the effect of rebates paid through gaming promoters. As the information necessary for the Group to apply judgment and determine the consideration to which it is entitled are proprietary to the gaming promoters and are not communicated by the gaming promoters to the Group, the Group recognized the full amount paid to gaming promoters as reduction in revenue. In allocating the transaction price, the Group considers the amount at which the entity would sell or purchase the promotional merchandise or complimentary incentives separately as the stand-alone selling price of the performance obligations.

*Evaluating Lease Commitments.* The evaluation of whether an arrangement contains a lease is based on its substance. An arrangement is, or contains a lease when the fulfillment of the arrangement depends on a specific asset or assets and the arrangement conveys a right to use the asset.

*Group as a Lessee Prior to the Adoption of PFRS 16.* The Group has entered into various operating lease agreements as a lessee. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, that the lessor retains all the significant risks and rewards of ownership of these properties because the lease agreements do not transfer to the Group the ownership over the assets at the end of the lease term and do not provide the Group with a bargain purchase option over the leased assets and so accounts for the contracts as operating leases.

*Determination of Casino License's Useful Life.* The Group's casino license has been acquired through a business combination. The license has no expiration and renewal is not necessary. Further, it may only be cancelled under specific rare circumstances. Accordingly, management has assessed that the Group's casino license has an indefinite useful life.

#### Estimates and Assumptions

The key estimates and assumptions concerning the future and other key sources of estimation uncertainty at reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities recognized in the consolidated financial statements within the next financial year are discussed as follows:

*Definition of Default and Credit-Impaired Financial Assets.* Upon adoption of PFRS 9, the Group defines a financial instrument as in default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

- *Quantitative Criteria.* The borrower is more than 90 days past due on its contractual payments, which is consistent with the Group's definition of default.
- *Qualitative Criteria.* The borrower meets unlikelihood to pay criteria, which indicates the borrower is in significant financial difficulty. These are instances where:
  - a. The borrower is experiencing financial difficulty or is insolvent;
  - b. The borrower is in breach of financial covenant(s);
  - c. Concessions have been granted by the Group, for economic or contractual reasons relating to the borrower's financial difficulty; or
  - d. It is becoming probable that the borrower will enter bankruptcy or other financial reorganization.

The criteria above have been applied to all financial instruments held by the Group and are consistent with the definition of default used for internal credit risk management purposes. The default definition has been applied consistently to model the probability of default (PD), loss given default (LGD) and exposure at default (EAD) throughout the Group's ECL calculation.

*Simplified Approach for Trade Receivables.* The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various patron segments that have similar loss patterns. The provision matrix is initially based on the Group's historical observed default rates. The Group calibrates the matrix to adjust the historical credit loss experience with forward-looking information. At every financial reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

*Grouping of instruments for losses measured on collective basis*

For expected credit loss provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a group are homogeneous.

The characteristics and any supplementary data used to determine groupings are outlined below.

*Trad- receivables - Groupings for collective measurement*

- a. Currency
- b. Type of patron

*Macro-economic Forecasts and Forward-looking Information.* Macro-economic forecasts is determined by evaluating a range of possible outcomes and using reasonable and supportable information that is available without undue cost and effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Group takes into consideration using different macro-economic variables to ensure linear relationship between internal rates and outside factors. Regression analysis was used to objectively determine which variables to use.

Predicted relationship between the key indicators and default and loss rates on various portfolios of financial assets have been developed based on analyzing historical data over the past 5 years. The methodologies and assumptions including any forecasts of future economic conditions are reviewed regularly.

Provision for doubtful accounts recognized for the three months ended March 31, 2026 and 2025 amounted to nil. The carrying amount of receivables amounted to ₱1.5 billion and ₱1.3 billion as of March 31, 2026 and December 31, 2025, respectively.

*Estimating Useful Lives of Property and Equipment.* Management determines the estimated useful lives and the related depreciation and amortization charges for its property and equipment based on the period over which the property and equipment are expected to provide economic benefits. Management's estimation of the useful lives of property and equipment is based on collective assessment of industry practice, internal technical evaluation and experience with similar assets. These estimations are reviewed periodically and could change significantly due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. Management will increase the depreciation and amortization charges where useful lives are less than the previously estimated useful lives.

*Valuation of Land at Revalued Amount.* In 2024, the Group carries its land at fair value, with changes in fair value being recognized in OCI. The Group engaged external appraisers to estimate the fair values of the land. The value of the land was estimated using the "Market Approach". This approach is based on sales and listings of comparable properties registered within the vicinity. The technique of this approach requires the establishment of comparable property by reducing reasonable comparative sales and listings to a common denominator. This is done by adjusting the differences between the subject property and those actual sales and listings regarded as comparable. Significant increase (decrease) in estimated price per square meter would result in a significantly higher (lower) fair value.

The aggregate net book value of the Group's property and equipment (excluding land and construction in progress) amounted to ₱62.1 billion and ₱63.5 billion as of March 31, 2026 and December 31, 2025, respectively.

*Impairment of Nonfinancial Assets.* PFRSs requires that an impairment review be performed when certain impairment indicators are present. In the case of goodwill and intangible assets with indefinite useful life, at a minimum, such assets are subject to an impairment test annually and whenever there is an indication that such assets may be impaired. This requires the determination of fair value less costs of disposal calculation and an estimation of the value in use of the CGU to which these assets are allocated. The value-in-use calculation requires to make an estimate of the expected future cash flows from the CGU and to choose a suitable discount rate in order to calculate the present value of those cash flows.

Determining the recoverable amount of property and equipment, advances to contractors, intangible assets, and operating equipment, requires the Group to make estimates and assumptions in the determination of future cash flows expected to be generated from the continued use and ultimate disposition of such assets. Future events could cause the Group to conclude that property and equipment, intangible assets and other noncurrent assets associated with an acquired business are impaired. Any resulting impairment loss could have a material adverse impact on the Group's financial position and financial performance.

Management is required to make estimates and assumptions to determine the recoverable amounts. While the Group believes that the assumptions used are reasonable and appropriate, these estimates and assumptions can materially affect the consolidated financial statements. Future adverse events may cause the management to conclude that the affected assets are impaired and may have a material impact on the Group's financial condition and results of operations.

There was no impairment loss recognized for the three months ended March 31, 2026 and 2025.

The carrying values of nonfinancial assets subject to impairment review are as follows:

	<b>March 31, 2026</b> <i>(Unaudited)</i>	December 31, 2025 <i>(Audited)</i>

	<b>₱157,741,135,282</b>	₱159,206,841,295

*Determining Retirement Benefits Liability.* The determination of the Group's obligation and cost for retirement benefits is dependent on the selection of certain assumptions used by the Group's actuaries in calculating such amounts. While it is believed that the Group's assumptions are reasonable and appropriate, significant differences in actual experience or significant changes in assumptions may materially affect the Group's retirement liabilities.

Retirement liability amounted to ₱2.2 billion as of March 31, 2026 and December 31, 2025.

*Recognition of Deferred Tax Assets and Liabilities.* The Group reviews the carrying amounts at the end of each reporting period and reduced the deferred tax assets to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. The Group's assessment on the recognition of deferred tax assets on NOLCO, MCIT and deductible temporary differences is based on the level and timing of forecasted taxable income of the subsequent reporting periods. The forecast is based on past results and future expectations on revenues and expenses as well as future tax planning

strategies. However, there is no assurance that the Group will generate sufficient taxable income to allow all or part of its deferred income tax assets to be utilized.

The Group has no net deferred tax assets balance as of March 31, 2026 and December 31, 2025.

BRHI and Sureste shall pay interest on the unpaid principal amount of each advance at the applicable interest rate on each interest payment date for the period then ending. The loan bears a floating interest rate based on higher of the average of closing PHP BVAL reference rate with a tenor of three months and the prevailing BSP 28-day term deposit facility rate, plus spread of 1.75%. BRHI and Sureste have a one-time option to convert the floating interest rate to the fixed interest rate exercisable at any time after the full drawdown.

BRHI and Sureste are obliged to pay on each date of drawdown a commitment fee equivalent to 0.5% per annum based on the undrawn portion of the commitment.

The ₱40.0 billion Syndicated Loan Facility provides that BRHI and Sureste are permitted to make optional prepayments anytime until maturity. Upon prepayment, BRHI and Sureste

shall pay the principal, accrued interest and penalty based on the amount prepaid in the following percentages: (i) 1% for years 1 to 3 from the initial borrowing date; (ii) 0.5% for year 4; and (iii) .25% for year 5.

On February 13, 2025, BRHI and Sureste signed with the lenders an amendment to the ₱40.0 billion Syndicated Loan Facility. The amendment agreement covers revisions to “Interest Rate” and “Repayment Term”.

The revised Repayment Term provides for the principal to be repaid in quarterly installments in accordance with the following schedule:

Repayment Date (Quarter from Initial Drawdown Date)	Installment Date for Each Facility Payment Date (Percentage of the Total Principal Amount Drawn)
5 <sup>th</sup> to 16 <sup>th</sup>	0.125%
17 <sup>th</sup> to 20 <sup>th</sup>	0.25%
21 <sup>st</sup> to 24 <sup>th</sup>	1.125%
25 <sup>th</sup> to 28 <sup>th</sup>	2.50%
29 <sup>th</sup> to 32 <sup>nd</sup>	3.25%
33 <sup>rd</sup> to 36 <sup>th</sup>	7.50%
37 <sup>th</sup> to 40 <sup>th</sup> h	10.0%

BRHI and Sureste accounted for the amendment as a modification of the existing ₱40.0 billion Syndicated Loan Facility. As a result of the modification, BRHI and Sureste recognized a discount on the loan payable amounting to ₱4.0 billion, which was recorded as an adjustment to the carrying amount of the loan. This discount will be amortized over the remaining term of the loan using the effective interest method.

In the first quarter of 2025, BRHI and Sureste recognized a gain on loan modification amounting to ₱2.9 billion presented as part of “Other expenses” account in the consolidated statements of comprehensive income. The gain reflects the economic benefit arising from the revised terms, particularly the remeasurement of future cash outflows under the amended agreement.

As of March 31, 2026, this facility has been fully drawn. Outstanding long-term debt, net of unamortized debt discount, amounted to ₱36.4 billion and ₱36.1 billion as of March 31, 2026 and December 31, 2025, respectively.

All legal and professional fees, including commitment fee, incurred in relation to the loans were capitalized. Debt issue costs were amortized using EIR method.

Unamortized debt discount, representing capitalized debt issue costs, is presented as deduction from the Group’s long-term debt.

#### Debt Covenants

The Group’s ₱73.5 billion, ₱20.0 billion and ₱40.0 billion Syndicated Loan Facilities contain certain restrictive covenants that requires BRHI and Sureste to comply with specified financial ratios and other financial tests at quarterly measurement dates. The Group’s loan agreements include compliance with certain financial ratios such as debt-to-equity ratio (computed as total liabilities, net of liabilities backed by cash divided by total equity) and debt service coverage ratio (originally computed as net income, excluding non-cash other income, plus interest expense; depreciation and amortization divided by current portion of long-term debt and interest expense).

The debt covenants on the extinguished ₱73.5 billion and ₱20.0 billion Syndicated Loan Facility will apply to the ₱72.0 billion Syndicated Loan Facility obtained by the Group on October 24, 2024.

In 2020, BRHI's and Sureste's lenders granted the: (a) deferment of financial covenant testing on the audited annual financial statements until the full year 2025; (b) amendment of definition of debt service coverage ratio to net income (excluding non-cash other income) plus interest expense; depreciation and amortization and cash and cash equivalents less liabilities backed by cash divided by current portion of long-term debt and interest expense; and (c) waiver of the negative covenant on incurrence of additional liens.

As of March 31, 2026 and December 31, 2025, BRHI and Sureste are in compliance with these debt covenants.

Unissued shares from the authorized capital stock or treasury shares, together with shares already granted under the SIP, which are equivalent to seven percent (7%) of the resulting total outstanding shares of the Group, shall be allocated for the SIP.

Unless the SIC determines otherwise, when dividends are declared by Bloomberry, the number of shares subject to an award shall be increased by the number equal in value to the dividends the awardee would have received in respect of an award had the shares awarded to the awardee vested at the time of the dividend declaration. The Group also has certain leases of equipment and other assets with lease terms of 12 months or less and leases of office equipment with low value. The Group applies the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

The contract price of ₱5.5 billion, VAT-inclusive, includes a re-measurable component of the general contract works and a lumpsum component of the enabling works. Forecasted project completion is at the end of 2024. As of March 31, 2026 and December 31, 2025, Sureste has fully paid ₱5.5 billion to PBD Joint Venture.

*F.R. Sevilla Industrial and Development Corporation*

In February 2022, Sureste engaged F.R. Sevilla Industrial and Development Corporation (“F.R. Sevilla”) for the combined Mechanical Works for Podium & Energy Center and for Basement & Tower of the Solaire Resort North Project with an agreed original contract amounting to ₱1.23 billion, VAT-inclusive. As of March 31, 2026 and December 31, 2025, Sureste has paid ₱1.5 billion to F.R. Sevilla, respectively. The remaining retention payable amounting to ₱6.2 million is due after a year.

*E.E. Black, Ltd*

Sureste engaged E.E. Black, Ltd (“E.E. Black”) for the Level 8-18 Fit-out works in May 2022, and Level 27-33 + Lift Cab Fit-out works in September 2022, of the Solaire Resort North Project with an agreed combined contract amounting to ₱1.3 billion, VAT-inclusive. As of March 31, 2026 and December 31, 2025, Sureste has effectively paid ₱1.5 billion and ₱1.4 billion, respectively, to E.E. Black. The remaining retention payable amounting to ₱84.9 million is due after a year.

- c. BRHI and G&L entered into junket operator agreements with junket operators who have the primary responsibility of directing gaming patrons to the casino. Based on these agreements, these junket operators are compensated based on a certain percentage of the wins or rolling chips. Gaming promoters' expense presented as contra-revenue for the three months ended March 31, 2026 and 2025 amounted to ₱0.7 billion and ₱1.2 billion, respectively. Receivable from junket operators as of March 31, 2026 and December 31, 2025 amounted to ₱1.6 billion.
- d. On September 9, 2011, Sureste and BRHI jointly entered into a Management Services Agreement ("MSA") with Global Gaming Philippines LLC ("GGAM") for technical assistance on all aspects of planning, design, layout, and construction of the Project within Entertainment City and for services related to recruitment, selection, and hiring of employees for the Project. GGAM through the Management Team shall also provide management and other related services upon commencement of the Project's commercial operations. Fees per contract amounts to US\$100,000 per month for the technical assistance and US\$75,000 monthly for services related to the preopening operations. Upon commencement of the commercial operations and five years thereafter, the Group will pay GGAM annual fees equivalent to certain percentages of Sureste's and BRHI's earnings before interest, taxes, depreciation and amortization.

Sureste and BRHI terminated the MSA effective September 12, 2013 because of material breach of the MSA by GGAM after prior notice and failure of discussions to settle their dispute. GGAM denies having breached the MSA and alleges that it is BRHI and Sureste who breached the MSA. The parties submitted their dispute to arbitration before a 3-member arbitral tribunal in Singapore under the arbitration rules of the United Nations Commission on International Trade Law ("UNCITRAL") using Philippine law as the governing law.

Under the MSA, GGAM was granted an option over the shares of BRHI and Sureste. After the backdoor listing of Bloomberry the option was granted under an Equity Option Agreement to purchase up to 921.2 million shares, equivalent to 9.91% of Bloomberry's outstanding shares (prior to Bloomberry's top-up equity offering) from PSHI at a purchase price equivalent to ₱1.00 per share plus US\$15 million. On December 21, 2012, GGAM exercised its option to purchase 921,184,056 shares of Bloomberry from PSHI at the agreed option strike price of ₱1.67 per share and was crossed through the Philippine Stock Exchange on December 28, 2012. On February 25, 2014, the Makati Regional Trial Court (MRTC) granted the application of BRHI, Sureste and PSHI for measures of protection in the form of writs of preliminary attachment and preliminary injunction to restrain GGAM from disposing the Bloomberry shares in order to maintain the status quo. GGAM filed a petition for review on certiorari with the Court of Appeals against the decision of the MRTC.

On December 9, 2014, the tribunal issued its Order in Respect of Claimants' Interim Measures of Protection, declaring among others, that the February 25, 2014 Order of MRTC is superseded and that parties are restored to their status quo ante as of January 15, 2014 and allowed GGAM to sell the shares.

GGAM filed a Manifestation with the MRTC concerning the order of the arbitral tribunal and seeking assistance in the enforcement thereof. BRHI, Sureste and PSHI filed a Counter-Manifestation on impropriety of GGAM Manifestation given its non-compliance with requirements of the Special Rules of Court on Alternative Dispute Resolution (Special ADR Rules) for enforcement of judgment/interim measures of protection. GGAM also filed a Manifestation and Motion with the Court of Appeals seeking the same relief as that filed with the MRTC. BRHI, Sureste and PSHI filed a Comment/Opposition arguing against the grant of the Motion with the Court of Appeals for non-compliance with the Special ADR Rules as well as for forum-shopping. In a resolution dated May 29, 2015 and affirmed on November 27, 2015, the Court of Appeals remanded back the case to the MRTC for further proceedings.

On September 20, 2016, the arbitral tribunal issued a partial award on liability. It declared that 1) GGAM (Claimants) has not misled BRHI/Sureste (Respondents) into signing the MSA, and

the Respondents were not justified to terminate the MSA because the services rendered by the Respondent's Management Team should be considered as services rendered by GGAM under the MSA, 2) rejected GGAM's claim that GGAM was defamed by the publicized statements of the Chairman of BRHI/Sureste, 3) that there is no basis for Respondents to challenge GGAM's title to the 921,184,056 Bloomberry shares because the grounds for termination were not substantial and fundamental, thus GGAM can exercise its rights in relation to those shares, including the right to sell them; 4) reserved its decision on reliefs, remedies and costs to the Remedies Phase which is to be organized in consultation with the Parties, 5) reserved for another order its resolution on the request of GGAM: (a) for the Award to be made public, (b) to be allowed to provide a copy of the Award to Philippine courts, government agencies and persons involved in the sale of the shares, and (c) to require BRHI/Sureste and Bloomberry to inform Deutsche Bank AG that they have no objection to the immediate release of all dividends paid by Bloomberry to GGAM.

On August 31, 2017, BRHI and Sureste filed a request for reconsideration of the partial award in the light of U.S. DOJ and SEC findings of violations of the Foreign Corrupt Practices Act by GGAM officers Weidner and Chiu, and for false statements and fraudulent concealment by GGAM in the arbitration. GGAM opposed the request on September 29, 2017. In a decision dated November 22, 2017, the tribunal denied the request for reconsideration saying it has no authority to reconsider the partial award under Singapore law. The tribunal said that the courts might be the better forum to look into the allegations of fraud.

On December 21, 2017, BRHI and Sureste filed a petition in the High Court of Singapore to set aside the June 20, 2017 judgment of the Court and to either remit the partial award to the tribunal for correction, or otherwise set aside the partial award based on the fraud allegations previously raised in the request for reconsideration.

In a resolution dated November 23, 2017, the MRTC affirmed the continuing validity of its February 25, 2014 order and the writ of preliminary injunction and attachment issued pursuant thereto. GGAM filed a petition for review with the Court of Appeals to question this MRTC order. The Court of Appeals denied this petition, and GGAM filed a petition in the Supreme Court to question the decision of the Court of Appeals.

On September 27, 2019, BRHI and Sureste received the Final Remedies Award of the arbitration tribunal. The Final Award awarded less than half of the damages sought by GGAM. It provides that:

- a) Respondents pay US\$85.2 million as damages for lost management fees to Claimants;
- b) Respondents pay US\$391,224 as pre-termination fees and expense to Claimants;
- c) Respondents pay ₱10,169,871,978.24 for the (921,184,056) GGAM shares in Bloomberry in exchange for Claimants turning over the Shares after the payment. If Respondents do not pay for the Shares, GGAM may sell the Shares in the market and Respondents are directed to take all steps necessary to facilitate this sale. Respondents will be liable for the difference in the selling price if it is less than the awarded price;
- d) Respondents to take all steps necessary to release to GGAM the cash dividends on the Shares (currently subject of the injunction of the RTC Makati);
- e) Respondents to pay Claimants Cost of US\$14,998,052.
- f) Post-award interest at the annual rate of 6%, compounded annually, or 50 basis per month for the pre-termination expenses in (b), beginning 30 days after the Award.

On November 5, 2019, BRHI and Sureste filed in the Singapore High Court an application to set aside the Final Award on the grounds of fraud and fraudulent concealment among others. BRHI and Sureste received a decision of the Singapore High Court dated January 3, 2020 in Originating Summons 1432 of 2017 (OS 1432) dismissing their petition to vacate and oppose the enforcement of the Partial Award of the Arbitration Tribunal dated September 20, 2016. The Court said that the FCPA Findings (referring to the U.S. Department of Justice non-

prosecution agreement with Las Vegas Sands and the U.S. SEC order on Foreign Corrupt Practices Act involving Weidner and Chiu while they were with Las Vegas Sands) “do not constitute strong and cogent evidence of any species of fraud” raised by Sureste and BRHI against GGAM. On February 3, 2020, BRHI and Sureste appealed this decision to the Court of Appeals in Singapore. In a decision dated February 16, 2021, the Singapore Court of Appeals denied the appeal of BRHI and Sureste.

On May 29, 2020, the Singapore High Court issued a decision dismissing Sureste and BRHI’s petition to set aside/resist enforcement of the Final Award of the Arbitration Tribunal dated September 27, 2019.

The Singapore High Court ruled that the “Constructive Remedy,” which requires Sureste and BRHI to either (1) pay for the Bloomberry shares held by GGAM in exchange for the Bloomberry shares, or (2) take steps to facilitate GGAM’s sale of the Bloomberry shares, was not outside the scope of the parties’ arbitration agreement. The Singapore High Court also rejected the challenges based on the FCPA Findings (referring to the findings of the U.S. Department of Justice and the U.S. Securities and Exchange Commission regarding conduct by two of GGAM’s four executives during their tenure at Las Vegas Sands that violated the U.S. Foreign Corrupt Practices Act (FCPA) and GGAM’s fraudulent concealment of evidence during the Arbitration. The Singapore High Court likewise denied the argument that GGAM Netherlands, to which the MSA was assigned, was a sham entity established solely to evade U.S. and Philippine taxes, because the Arbitration Tribunal rejected the same argument, and thus, the High Court found that the grant of damages to GGAM Netherlands is not contrary to Singapore public policy. Costs were charged against Sureste and BRHI.

On June 29, 2020, Sureste and BRHI filed a Notice of Appeal to the Singapore Court of Appeals to appeal the Singapore High Court’s decision dated May 29, 2020 in case number OS 1385 dismissing Sureste and BRHI’s petition to set aside/resist enforcement of the Final Award of the Arbitration Tribunal dated September 27, 2019 docketed as CA98. On October 4, 2021, the Singapore Court of Appeals issued a decision which denied the appeal of BRHI and Sureste against the decision dated May 29, 2020.

BRHI and Sureste were advised by Philippine counsel that an award of the Arbitral Tribunal can only be enforced in the Philippines through an order of a Philippine court of proper jurisdiction after appropriate proceedings taking into account applicable Philippine law and public policy. GGAM has not filed the required petition to enforce the arbitral award in the Philippines.

On March 29, 2021, GGAM (without GGAM Netherlands joining) sued Enrique K. Razon Jr., BRHI, Sureste and other companies in the U.S. associated with Mr. Razon in the U.S. District Court in Southern District of New York. By this suit GGAM wants to enforce in the U.S. against Mr. Razon personally and companies in the U.S. associated with him the arbitral award that was issued only against BRHI and Sureste. On March 21, 2022, the court did not grant the motion to dismiss the complaint of GGAM as against Sureste, BRHI and Mr. Enrique K. Razon Jr. but the court granted the dismissal of the case against all other defendants.

GGAM has amended its complaint to allege trespass to chattels against Mr. Razon, to which Mr. Razon has filed a motion to dismiss. On January 11, 2023, the US District Court denied Mr. Razon’s motion to dismiss. BRHI and Sureste maintain their position that the New York court has no jurisdiction over them as they do not do business in New York nor in the U.S. Mr. Razon maintains the position that there is no basis to pierce the corporate veil of BRHI and Sureste to reach him as BRHI and Sureste are owned by Bloomberry, a publicly listed company.

On September 12, 2023, the US District Court granted Mr. Razon’s motion for summary judgement on the trespass to chattel and declared that GGAM did not proffer sufficient evidence of Mr. Razon’s interference with GGAM’s BRC shares. The Court denied the

motions and cross-motions for summary judgement of the parties on the issue of personal jurisdiction over BRHI and Sureste and on the issue of the enforcement of the arbitral award against Mr. Razon as the alter ego of BRHI and Sureste. The Court essentially said that the parties have introduced sufficient evidence to allow a reasonable fact finder to find in their favor, hence there is need for a trial to determine which side will prevail. The Court also denied without prejudice GGAM's motion to confirm the Final Award.

On January 22 and 23, 2024, the Court held a hearing on the threshold issue of personal jurisdiction over BRHI and Sureste with the parties presenting their respective witnesses. The Court also encouraged the parties to discuss the possible settlement of this case because a trial on the various issues, if the Court affirms its jurisdiction, will take many years.

In March 2024, Sureste and BRHI reached an agreement for a universal settlement of their dispute with GGAM. The universal settlement will cover all the pending cases between the parties including the following:

- a) Case filed by GGAM in the US District Court of the Southern District of New York against Mr. Enrique K. Razon Jr., SPI and BRHI with docket no. 21-CV-2655(LGS)-(SN) to enforce an arbitral award;
- b) SP. PROC. M-7567, "Bloomberry Resorts and Hotels Inc., Sureste Properties Inc. and Prime Metroline Holdings Inc. vs. Global Gaming Philippines LLC, et al.", an injunction and attachment case filed by Sureste, BRHI and Prime Metroline Holdings Inc. (now Prime Strategic Holdings Inc., PSHI) before the RTC of Makati Br. 66;
- c) G.R. No. 243314, "Global Gaming Philippines LLC vs. Bloomberry Resorts and Hotels, Inc., Sureste Properties, Inc., PSHI and Deutsche Bank AG, Manila Branch", a certiorari case filed by GGAM in the Philippine Supreme Court questioning the decision of the Court of Appeals which affirmed the order of the RTC Makati affirming the validity of the writ of preliminary attachment and writ of preliminary injunction that it issued over the shares in Bloomberry held by GGAM;
- d) The Arbitral Award issued against Sureste and BRHI in favor of GGAM and GGAM Netherlands relating to the termination of GGAM's Management Services Agreement with Sureste and BRHI;
- e) The judgment of various Singapore Courts relating to the confirmation of the Arbitral Award in favor of GGAM and GGAM Netherlands against BRHI and Sureste. The settlement with GGAM requires Sureste to purchase the 921,184,056 shares in Bloomberry held by GGAM for a total purchase price of USD 300 Million.

On April 30, 2024, Sureste purchased 921,184,056 Bloomberry shares from GGAM at a purchase price of ₱18.32 per share, at the conversion rate of ₱55.94 to US\$1.00, through a Special Block Sale on the Philippine Stock Exchange pursuant to the Settlement Agreement. The Settlement Agreement was therefore completed. The purchase of Sureste of the 921,184,056 Bloomberry shares from GGAM amounting to ₱17,348.0 million was recorded under "Cost of shares held by a subsidiary" account in the consolidated financial statements

- a. On March 15, 2016, the Court of Appeals ("CA") issued a 30-day freeze order on one of BRHI's bank accounts upon the petition filed by the Anti-Money Laundering Council (AMLC) in relation to their ongoing investigation. The freeze order of the CA on the bank account was lifted on April 14, 2016. Subsequently, on request of the AMLC, the Supreme Court reinstated the freeze order on the account, which contained the amount of ₱109.3 million that was frozen from the accounts of those patrons subject to the investigation. In a decision dated September 2, 2020, the Supreme Court denied AMLC's petition for review and lifted the TRO on the bank account of BRHI. As of March 31, 2026 and December 31, 2025, the balance of

this bank account amounting to ₱113.0 million is presented as “Fund held in trust” under the “Prepayments and other current assets” account in the statement of financial position.

In February 2019, BRHI received the summons and complaint as one of 16 Philippine companies and individuals that the Bangladesh Bank impleaded in the civil suit that it filed in the US District Court in New York against RCBC for recovery of the US\$81 million allegedly stolen from Bangladesh Bank account with the Federal Reserve Bank in New York that were allegedly laundered through Philippine casinos. BRHI through counsel filed a motion to dismiss the case for lack of subject matter jurisdiction and for forum non-conveniens. On March 20, 2020, the Federal Court of New York granted the motion to dismiss the case. Bangladesh Bank filed an appeal of the dismissal with the U.S. Court of Appeals which it withdrew later.

On September 23, 2020, BRHI received the summons in the civil complaint filed by Bangladesh Bank against RCBC and 16 other Philippine companies and individuals (including BRHI) in the New York State Court. The complaint in the State Court is for: conversion/ theft/ misappropriation; aiding and abetting the same; conspiracy to commit the same; fraud (against RCBC); aiding and abetting and conspiracy to commit fraud; conspiracy to commit trespass against chattels; unjust enrichment; and return of money received.

On December 9, 2020, BRHI filed its motion to dismiss the case because the Court has no jurisdiction over BRHI, the Philippines is the proper forum for the dispute and plaintiff’s allegation is insufficient to plead any claim against BRHI under New York law. On April 8, 2022, New York Court granted BRHI’s motion to dismiss the complaint filed by Bangladesh Bank for lack of jurisdiction. On May 11, 2022, Bangladesh Bank filed an appeal with the Appellate Division of the New York State Supreme Court, First Judicial Department, on the dismissal of its complaint against BRHI. On May 30, 2023, the Appellate Division of the New York Supreme Court upheld the order of the Supreme Court, New York County which granted BRHI’s motion to dismiss the complaint filed by Bangladesh Bank as against BRHI for lack of jurisdiction.

Except for the matters discussed in the preceding paragraphs, neither the Company nor any of its subsidiaries are involved in or the subject any legal proceedings which, if determined adversely to the Company or the relevant subsidiary’s interests, would have a material effect on the business or financial position of the Company or any of its subsidiaries.

Please refer to Note 8 of the Notes to Unaudited Condensed Consolidated Financial Statements for the discussion on debt financing.

## **RISKS**

The future operations of the Group shall be exposed to various market risks, particularly foreign exchange risk, liquidity risk and credit risk, which movements may materially impact the future financial results and conditions of the Group. The importance of managing these risks has significantly increased in light of the volatility in the Philippine and international financial markets. With a view to managing these risks, the Group has incorporated a financial risk management function in its organization, particularly within the treasury operations.

Renewed global trade tensions, including tariff measures involving the United States and its trading partners, the Russian invasion of Ukraine and the heightened tensions in the Middle East are noted as risks to global price stability. These have caused significant disruptions in global trade resulting in a supply constraint and increased fuel, food, and commodity prices. These events, along with adverse effects of local typhoons, have contributed to elevated levels of inflation. Persistently high inflation will likely lead to a reduction in disposable income and elevated input costs which could adversely affect the business of the Company.

### **Foreign Exchange Risk**

Foreign exchange risk is the risk that the value of the Group's financial instruments will fluctuate due to changes in foreign exchange rates. The Group has recognized in the consolidated statements of comprehensive income net foreign exchange gain of ₱162.3 million and net foreign exchange loss of ₱85.8 million in the first three months of 2026 and 2025, respectively, on the revaluation of its foreign currency denominated cash and cash equivalents, receivables and payables and other current liabilities.

### **Liquidity Risk**

Liquidity risk is the risk of not meeting obligations as they become due because of an inability to liquidate assets or obtain funding. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank loans.

As part of its liquidity strategy, the Group will set aside cash to ensure that financial obligations will be met as they fall due. The Group has cash and cash equivalents amounting to ₱31.6 billion and ₱26.5 billion as of March 31, 2026 and December 31, 2025, respectively, that are allocated to meet the Group's liquidity needs.

### **Credit Risk**

Credit risk is the risk that the Group will incur a loss arising from customers, clients or counterparties that fail to discharge their contracted obligations. The Group manages and controls credit risk by setting limits on the amount of risk that the Group is willing to accept for individual counterparties and by monitoring exposures in relation to such limits.

The Group's maximum exposure to credit risk is equal to the carrying amount of its financial instruments. The Group has no concentration of credit risk.
